

Release Note LS-860 v5.5.0.40

New Features

N/A

Issues Fixed & Modification

v5.5.0.40

- Fixed “False alarm of a built-in storage error triggered by a previous overheating incident”.
- Added support for Kaltura schedule iCal format with UID.
- Fixed “Changes to a child event from a recurring event on Kaltura were not applied to the schedule recording function”.
- Fixed “The deletion of a recurring event Kaltura was not applied to the schedule recording function”.
- Fixed “HTTPS SSL: CERTIFICATE_VERIFY_FAILED” error when using HTTPS with Kaltura server.
- Fixed “HTTPS SSL: CERTIFICATE_VERIFY_FAILED” error when uploading to Kaltura via HTTPS.
- Added a data recovery function under Admin -> Storage. This function is available only when the Media Station detects damaged video files and can only be initiated when the system id idle.
 - **Note: Successful recovery is not guaranteed and depends on the extent of the damage to the video files.**
- **Notice: During the firmware update progress, please always keep the power on to prevent permanent system unstable or damage.**
