

# KS-CC1 Media Station

Quick Installation Guide | ENGLISH

## FCC

### Federal Communication Commission interference statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help.

### RF Exposure Warning

The equipment complies with RF exposure limits set forth for an uncontrolled environment. The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

### FCC Caution

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference and
- (2) this device must accept any interference received, including interference that may cause undesired operation

This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

Notice: Any changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

## CE

Hereby, AREC Inc., declares that this Media Station is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

# CB

## CB

### CAUTION

Danger of explosion if battery is incorrectly replaced.

Replace only with the same or equivalent type.

- the ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, table-cloths, curtains, etc.:
- no naked flame sources, such as lighted candles, should be placed on the apparatus;
- attention should be drawn to the environmental aspects of battery disposal;
- the use of apparatus in tropical climates.

the instructions for use shall state that the apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

## Introduction

KS-CC1 can output instant transcription on monitors automatically in a speech event. It also can show the speech script or the translation on audience mobile device. Supporting recording, streaming, and exporting the transcription text file benefit the event host to provide various services for the attendees. It's compact and affordable for all the conference scenario.

## Specifications

Product Name	Live Speech-to-Text Media Station
Model Name	KS-CC1
Dimension	95mm(L) x 80mm(W) x 65mm(H)
Weight	490g
Power Requirement	12V / 3.34A
Power Consumption	40W (Max.)
Operating Temperature/Humidity	0°C ~ 40°C / 90%
Maximum loading disclosure	Supports one channel of video & audio signal input, include one HDMI or IP Cam/Stream or UVC video and one line-in or Mic-in audio. Output the transcoded video to the HDMI port(with GUI) and loop through one HDMI video source at the same time. Record the video file to the USB storage via USB port.

## Package Contents

\* Note: the shape of the plug may vary depending on the country or region.

## Product Appearance

### ■ Front Panel

### ■ Rear Panel

NO.	I/O Interface	Function Description
1	Start/Stop function key	Start/Stop transcription, translation, recording and streaming services simultaneously.
2	Micro SD card slot	Please prepare Micro SD card for internal storage
3	Reboot Button	Reboot the device
4	Ethernet Port(WAN)	For the internet access to google service, do live broadcasting or remote device control.
5	Mic-in	Connected with microphone
6	Line-In	Connected with audio mixer or amplifier
7	USB-In	1. Available for the USB audio/video inputs 2. Available for the USB mouse and touch devices 3. For the export of video with SRT files
8	HDMI-In 2 (Max. 3840x2160@60Hz)	HDMI input source, connected with PC or cameras.
9	HDMI-In 1 (Max. 3840x2160@60Hz)	HDMI input source, connected with PC or cameras.
10	HDMI Loop Out	Loop through HDMI video of HDMI-in 1
11	HDMI Out	Display video with closed captions or the transcription only. (comes with graphic tool bar)
12	Power Port	12V / 3A
13	Power Button	When the device is ON, push twice to turn OFF Long press 3 seconds to restart When the device is OFF, push to turn ON.
14	Reset button	Long press to reset the device to default settings
15	Power Indicator	LED Indicator for device boot status

NOTE: The KS-CC1 can detect and record to USB storage devices using FAT32, NTFS, exFAT, Ext3, Ext4 file systems.

- Configure recording
  - a. Insert a storage device (USB drive/Micro SD card)
  - b. Go to the web administrator → ["Storage"](#) page.
  - c. Find the storage device on the list and click ["Format"](#).

- d. Select the storage in the ["Record disk settings"](#) section and click ["Apply"](#).

- e. Go to the web administrator → ["Video"](#) → ["Recording"](#) to enable the ["Recording mode"](#) and click ["Appy"](#).

**CAUTION**  
**RISK OF EXPLOSION IF BATTERY IS REPLACED**  
**BY AN INCORRECT TYPE.**  
**DISPOSE OF USED BATTERIES ACCORDING**  
**TO THE INSTRUCTIONS**

## Important Security Policy .....

### ■ Precautions

1. Please open the product package carefully; we commend you keep this packaging for future transport, storage or maintenance use.
2. There are no switches or adjustment buttons required for operation inside this product, so for your safety, please do not open the casing on your own, or vigorously rotate, shake or use any other inappropriate ways to operate this product in order to avoid electrical shocks and voiding the warranty. You can contact a local dealer directly if you have any questions.
3. Heat will be generated during the use of this product; therefore there must be sufficient ventilation for the temperature of the unit to remain at a stable status. So please use the product under normal environments to prolong the usage life, and avoid installing it in the following environments.
  - Locations that are unstable or have incomplete planes
  - Locations with powerful magnetic fields
  - Locations where it is damp or may have water leakage
  - Locations that are too hot, close to heaters and air hoses, or be exposed to direct sun light for long periods of time
  - Locations that are dusty
  - Locations where there are possible shocks
  - Locations close to power amplifiers
4. If you notice smoke or odor coming from the product, please quickly remove the power cable and send it to a maintenance center for processing.
5. To avoid electrical shock, the plug of the adapter should be stably and completely inserted into the power outlet and cannot be exposed; it must also have sufficient capacity to withstand the current transmission. Please do not plug the adapter into the power outlet before connecting the cable in order to avoid danger.
6. If not used for long periods of time, please unplug the power plug, and to ensure electrical safety, when unplugging the adapter, please hold the plastic part of the adapter with dry hands and then unplug the adapter. Please properly connect the cables according to the printed instructions on the installation manual and the machine to ensure optimized usage effects.
