

AREC Media Center Installation Guide

Description

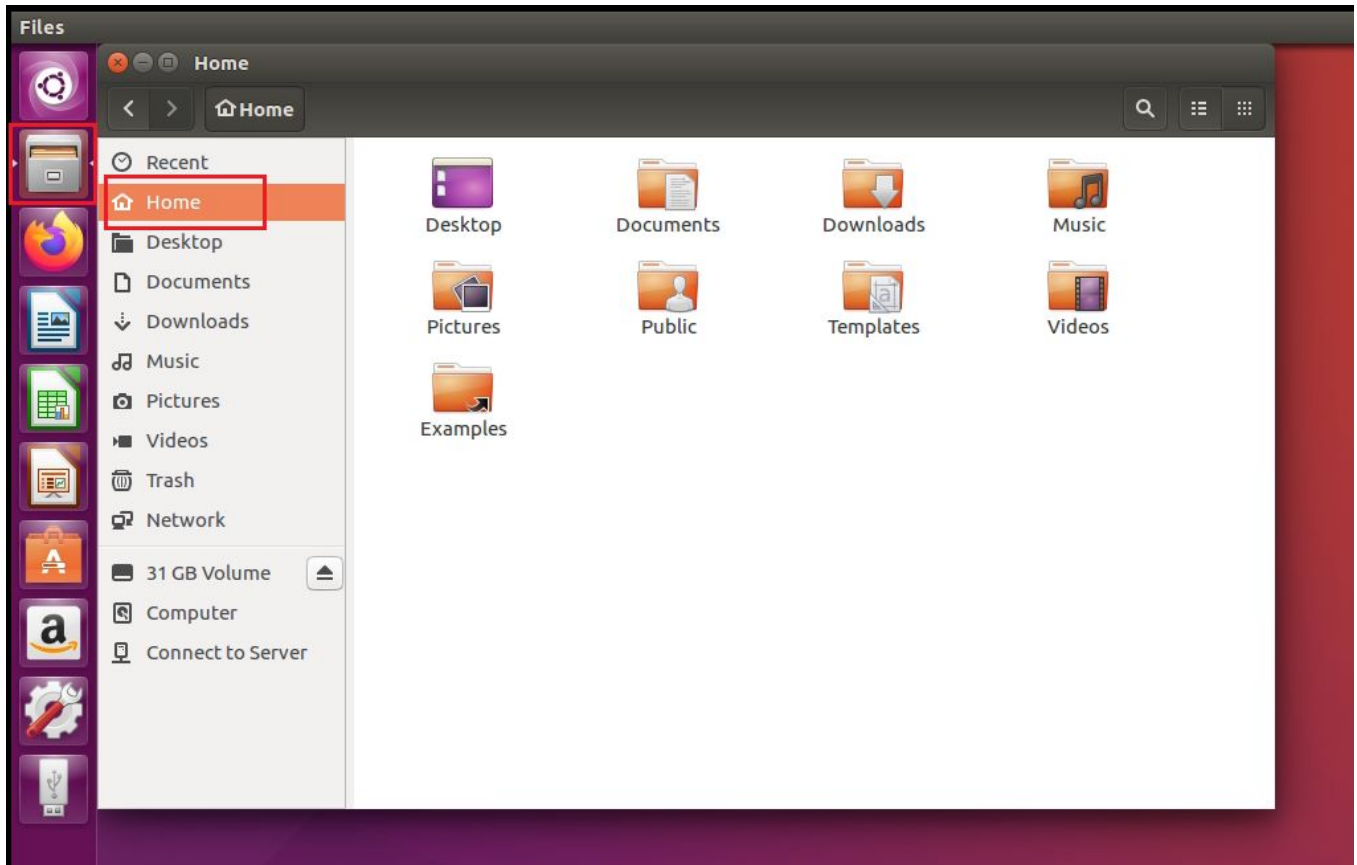

This document gives instructions on how to install AREC media center on a pre-installed Ubuntu operation system.

Environment

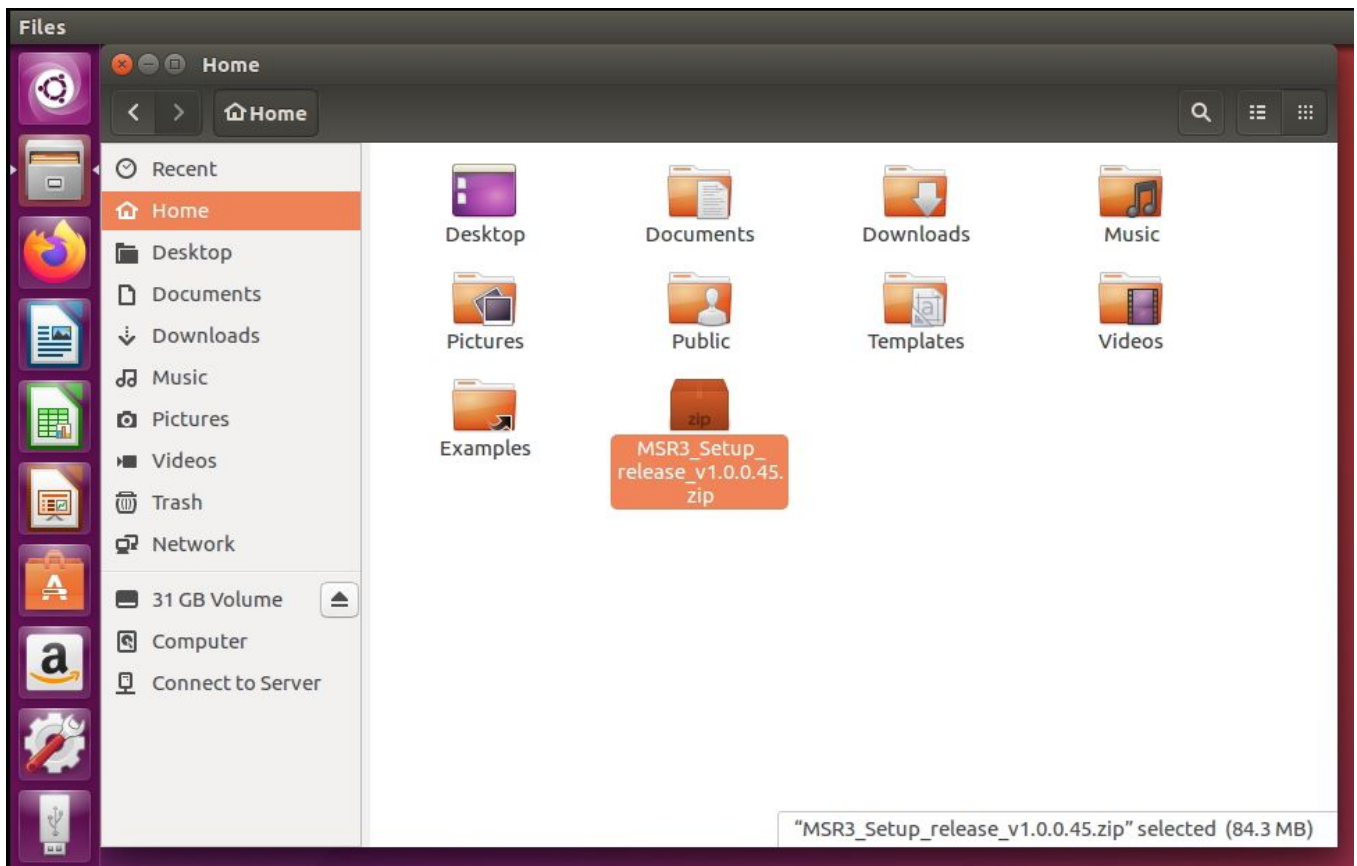

- Operation System: **Ubuntu 16.04** (not compatible on above or below version)
*You may find the Ubuntu 16.04 installation Guide [here](#).
**[Download link](#) of the Ubuntu 16.04 image file(64 bit).

Installation

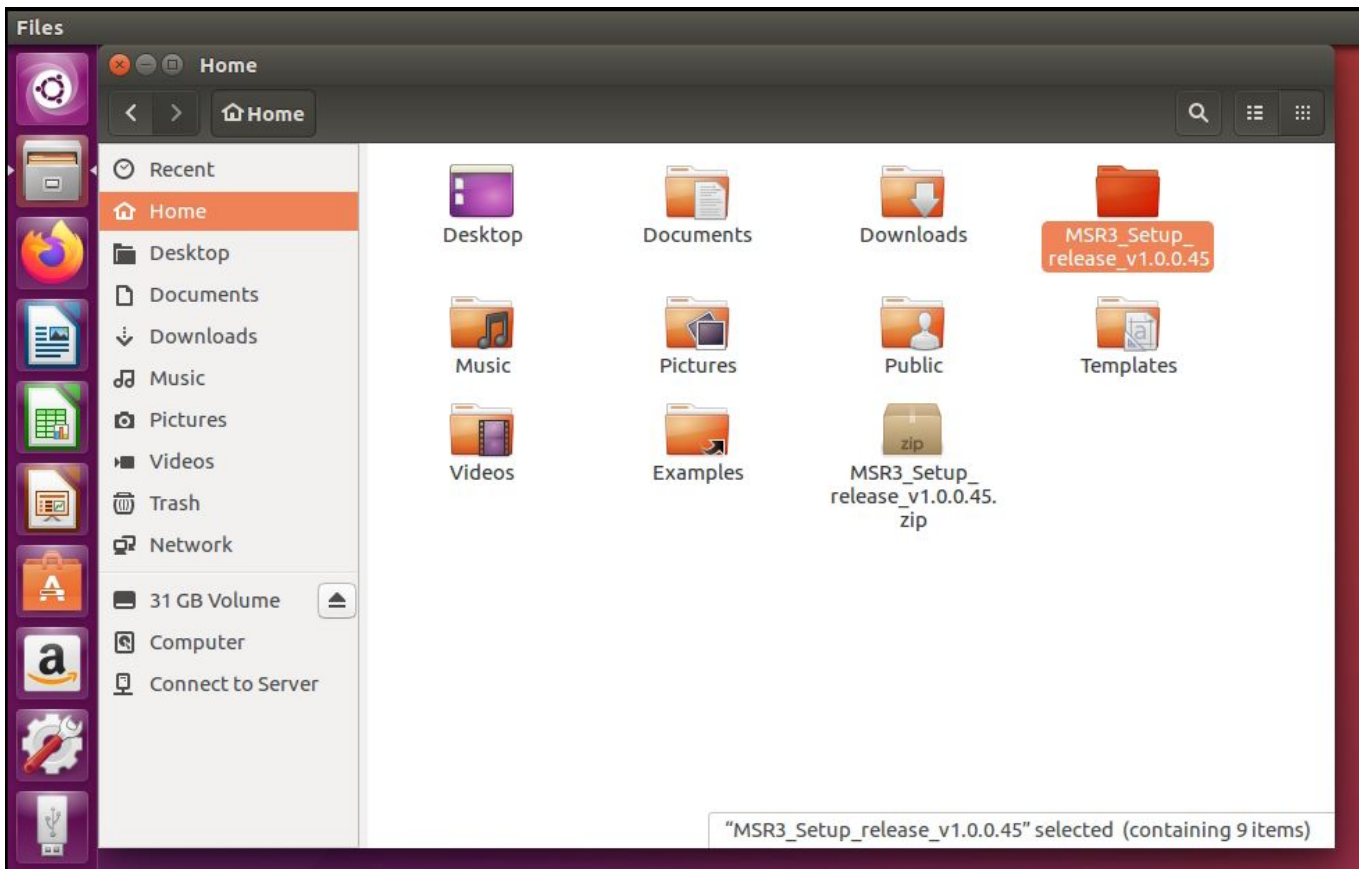

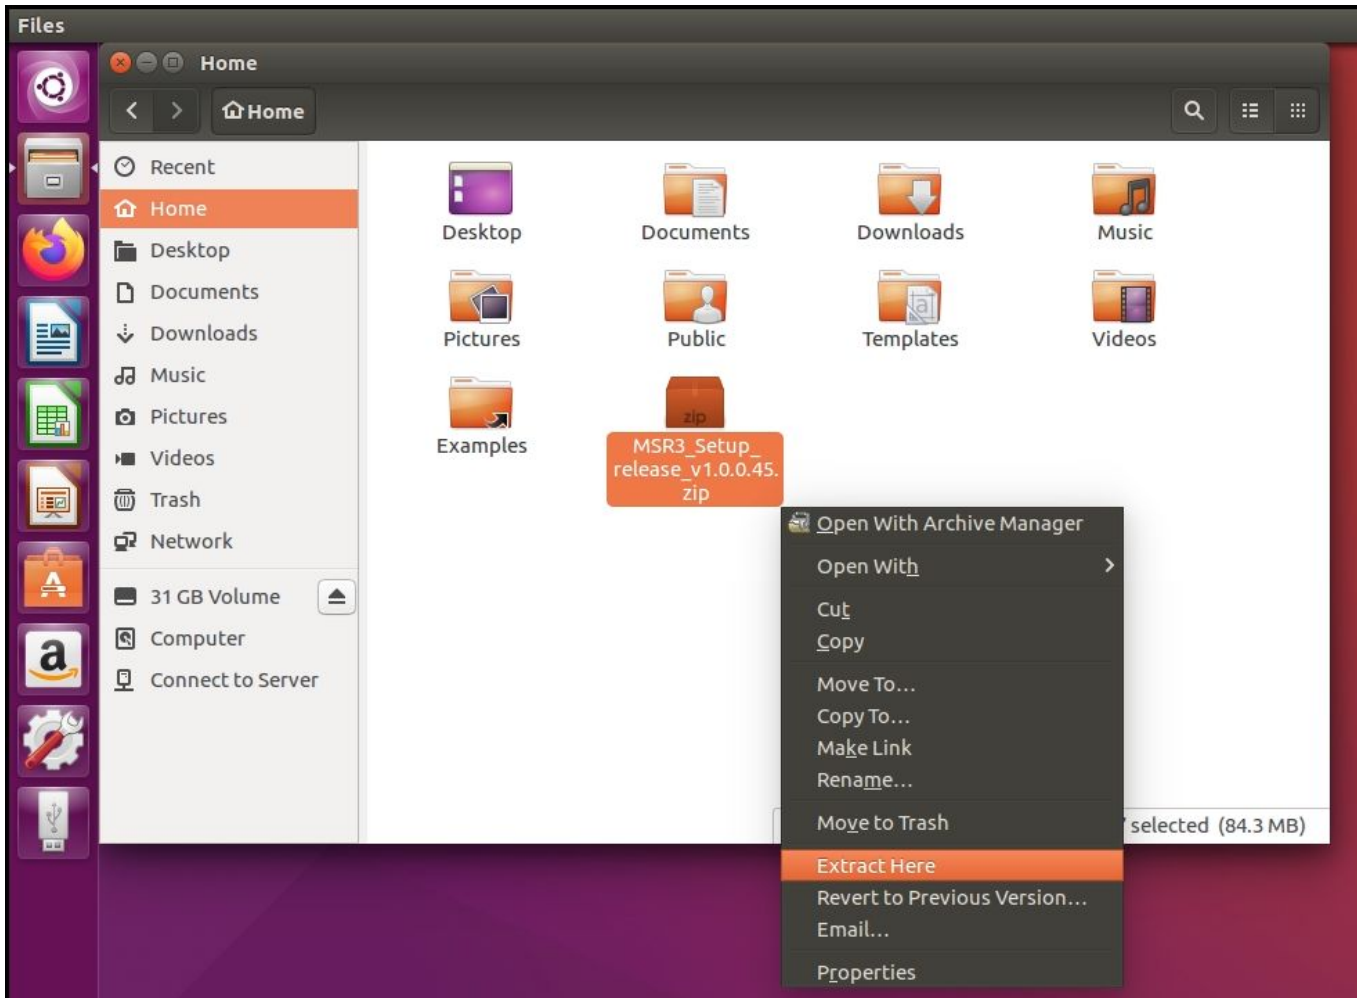

1. Open “Files”, and go to “Home”

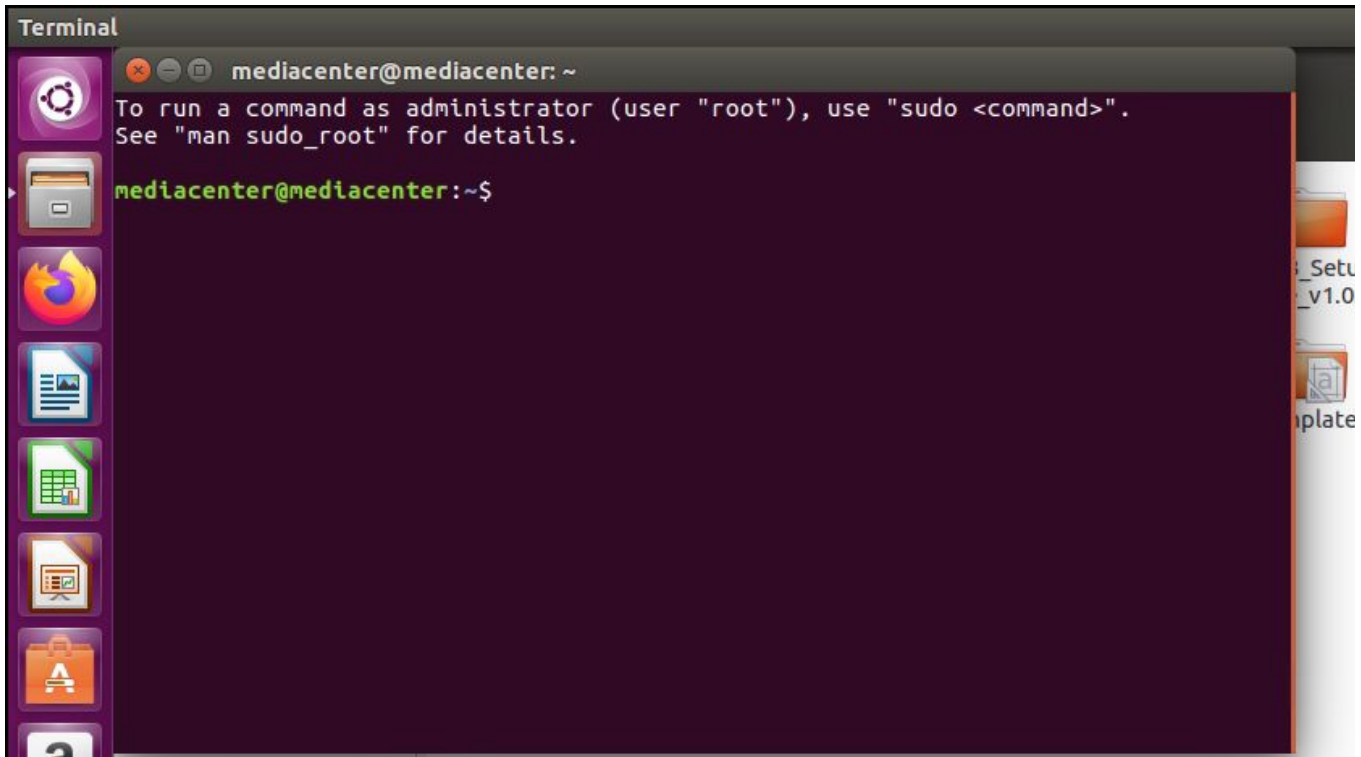

2. Copy the media center installation package to the Home directory

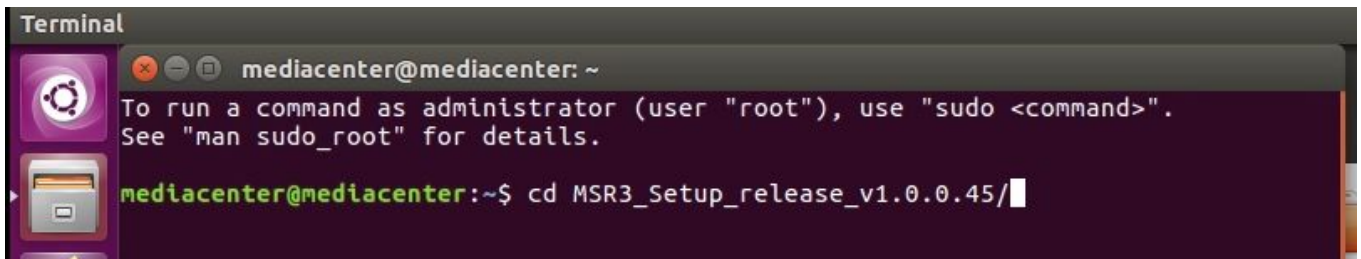

3. Extract the installation package

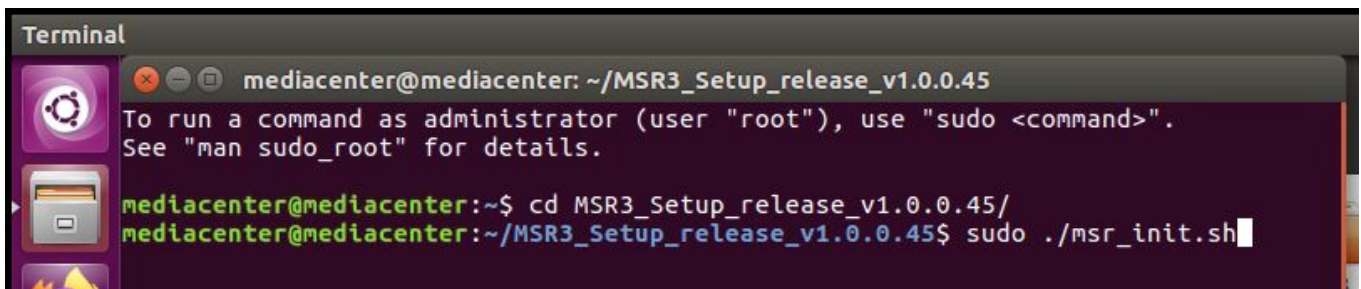

- Press “Ctrl” + “Alt” + “T” to open a terminal window.

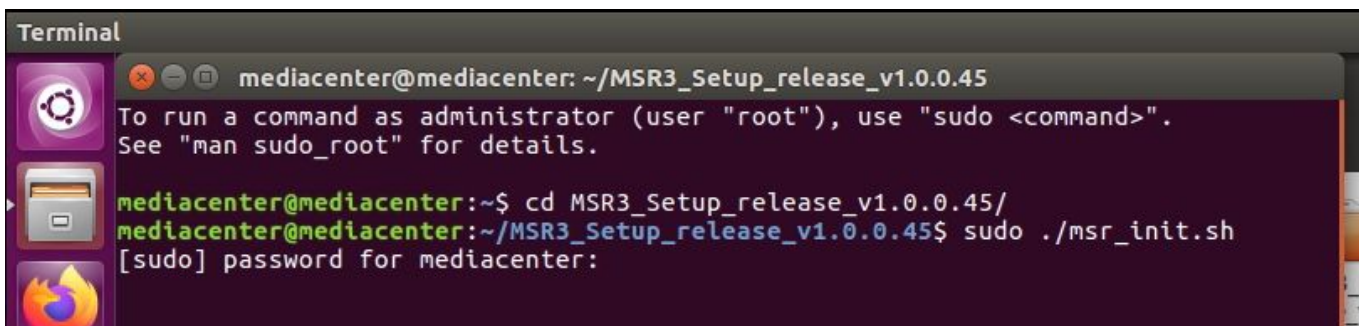

- Insert command: `cd MSR3_Setup_release_v1.0.0.48/`
 *Type in the name of the file correctly for the command to work

- Insert command: `sudo ./msr_init.sh`

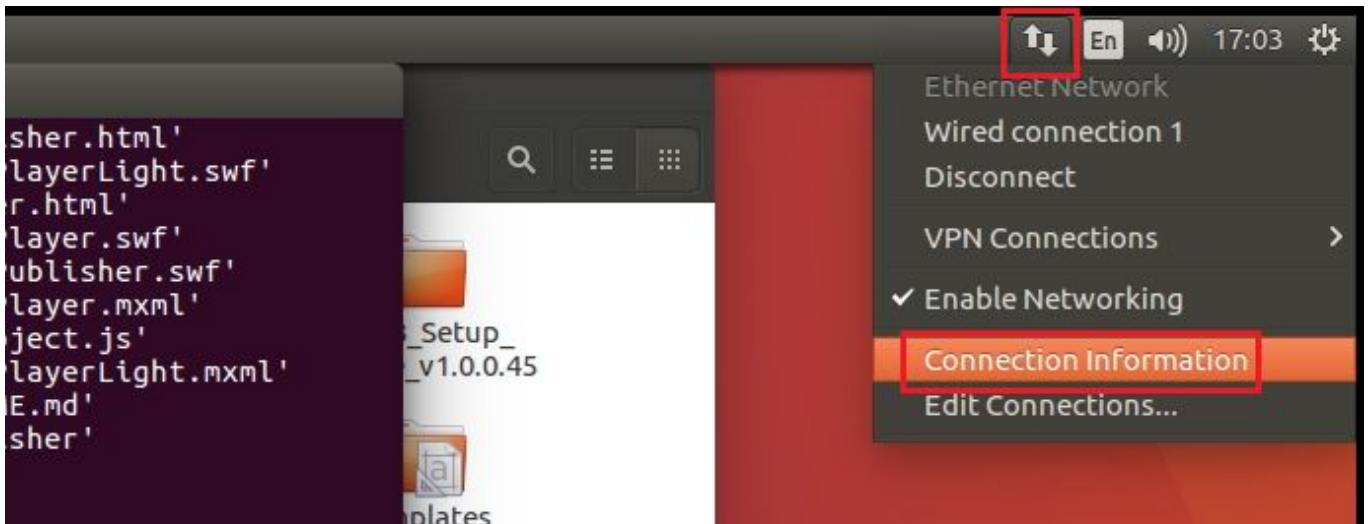

- Insert the password of the Ubuntu user and press “Enter” to start the installation.
 *Nor any text or symbols would be shown during inserting password

- It would take a couple of minutes to complete the installation.
When the installation is done, you may find as the image below.

- Click the “Ethernet Network” icon on the top-right corner.
And select “Connection Information” to find the Media Center’s IP address here.
